CMB E-Newsletter 11.11.16

Make sure to check out the Graduate School’s professional development event calendar, which has a comprehensive list of all professional development events around campus for grad students and postdocs. You can find the schedule at: http://grad.wisc.edu/pd/events.

Medical Microbiology & Immunology Seminar
Speaker: Jean-Michel Ané, PhD
Title: “Sweet Talks and Trade Deals in Plant-Microbe Symbioses"
When: Today (Friday, November 11) 12:00pm
Where: Room 6201 MSB (1550 Linden Drive)

International Student Support Gathering
In light of recent events, the International Student Services (ISS) office is inviting international students to join their peers and ISS staff for informal conversation, fellowship, and community building today at 1:30. Snacks and food will be provided, and international students are welcome to drop in as they are available.
When: Today (Friday, November 11), 1:30-3:30pm
Where: Multicultural Student Center (MSC) Lounge, Red Gym 2nd Floor

Graduate School Proposal Writing Workshop
Writing Graduate Research Proposals Workshop
GWIS/WARF Panel
Graduate Women in Sciences (GWIS) is partnering with the Wisconsin Alumni Research Foundation (WARF) to host a panel discussion/networking event focused on intellectual property, patenting, and licensing fields. They will have a panel discussion with experienced individuals in these fields followed by refreshments and networking. The event is on Tuesday, November 15 at 5 pm in Biochemical Sciences Building 1220 A/B. More details can be found on the GWIS website.

Microbes in Health & Disease Training Grant Seminar
Please mark your calendars for next Tuesday’s MDH trainee seminar featuring CMB student Will Olson from the Knoll lab!
Title: “Metabolomic Profiling of Full and Partial Infection by Toxoplasma Gondii”
When: Tuesday, November 15, 4:00pm
Where: Room 2511 MSB (1550 Linden Drive)

Cell and Regenerative Biology Seminar
CMB alumnus Dr. Duc Dong (currently an Assistant Professor at Sanford Burnham Prebys Medical Discovery Institute in California) will be giving a seminar in the Department of Cell and Regenerative Biology on Tuesday, November 15. There will also be an opportunity for CMB students to have lunch with Dr. Dong before the seminar. If you are interested in participating in the lunch, please contact Mariah Vanevenhoven at mvanevenhove@wisc.edu.
Title: “Induced In Vivo Lineage Conversion Across Germ Layers”
When: Tuesday, November 15, 2:00-3:00pm
Where: 3571 WIMR II

Community-Engaged Grad Social
The Association of Graduate Engaged Scholars (AGES) is holding a fall semester kick-off/social hour/listening event! Get to know other UW-Madison graduate
students who are interested in engaging with the community through their research and teaching and help plan 2016-17 events for community-minded grad students. Not sure what community-engaged scholarship means? New to community engagement? Join to learn more. Food will be provided. For more information, contact ages@morgridge.wisc.edu.

When: Tuesday, November 15, 6:00pm
Where: The Sett, Union South

**Cardiovascular Research Center Seminar**

The SMPH Cardiovascular Research Center welcomes you to attend a seminar presented by Dr. Ye Chen-Izu (University of California, Davis) on November 22. Dr. Chen-Izu’s lab combines molecular and cellular biology, chemistry, physics, and mathematical modelling to advance research in three aspects: (1) developing innovative technologies, (2) studying the fundamental mechano-chemo-electro-transduction mechanisms, and (3) developing new drug therapies to combat heart diseases. If you are interested in visiting with Dr. Chen-Izu for a 1:1 meeting prior to her seminar, please contact Christine Tydrich at christine.tydrich@wisc.edu.

Title: "Dynamical systems in the heart: Coupling of the electrical, Ca2+ signaling, and contractile systems"

When: Tuesday, November 22, 4:30pm
Where: 1335 Health Sciences Learning Center (HSLC)

**Departments of Neurological Surgery and Neurology Distinguished Lecture**

Speaker: Russell Lonser, MD, Department of Neurological Surgery, The Ohio State University

Title: “Neurologic manifestations of von Hippel-Lindau disease”

When: Friday, December 2, 2:30pm
Where: Room 1220 Medical Foundation Centennial Building (MFCB)
